

Preventing your Microsoft SharePoint from becoming a meeting point for viruses: **Avira AntiVir SharePoint** can be relied on to secure your Microsoft solutions from a daily flood of viruses.

Optimum protection against viruses and other undesirable elements.

- **Leading detection** and removal of viruses and malware
- Innovative AHeAD (Advanced Heuristic Analysis and Detection) technology for detection of unknown or fast changing attackers for proactive security
- Real-time monitoring of all access to files by **on-access scanner**
- Automatic **archive detection** (ZIP, RAR, GZIP, ARJ, LZH, LHA, ACE etc.) by smart detection technology with selection of the archive types to be checked, maximum compression rate and maximum number of files and adjustable recursion depth

Fast, automated updates

- Extremely small, bandwidth saving updates for detection pattern database and program through incremental VDF updates
- Fast, absolute protection through updates without system interruption
- Web servers or file servers can be updated; updating is also possible using a proxy server or email notification function

Efficient configuration and management

- Direct integration in Microsoft SharePoint Services and in the Microsoft Office SharePoint Server using the internal Microsoft SharePoint Virus Scan API
- MMC-based user interface to configure and administer the system fast
- The following configuration options are available: Update interval, source for updates (HTTP or CIFS Shares), proxy settings, settings for email messages, heuristic settings, archive options

System requirements

Windows:	<ul style="list-style-type: none">• Microsoft Office SharePoint Server 2007 (32 Bit/64 Bit)• SharePoint Services 3.0 (32 Bit/64 Bit)• Microsoft Office SharePoint Portal Server 2003• SharePoint Services 2.0
RAM:	<ul style="list-style-type: none">• At least 512 MB
HDD:	<ul style="list-style-type: none">• At least 100 MB free disk space
Computer:	<ul style="list-style-type: none">• At least Intel Pentium III-compatible processor or x64-compatible 64-Bit processor
